

Scale 1:60

Principal Characteristics

Length overall	9.9m	(32' 5")
Beam	3.6m	(11' 10")
Moulded Depth	1.4m	(4' 7")
Draught	1.0m	(3' 3")
Working Deck	18.7m ²	(208 ft ²)
Gross tonnage	10.36	
Net tonnage	3.33	
Gross Register tonnage *	10.64	
Fuel capacity	900 litre	(232 US gall.)
Water capacity	150 litre	(40 US gall.)
Fish hold	10m ³	(353 ft ³)
Engine **	Caterpillar 3208	435hp 10.4L
	Cummins 6CTA8.3M	430hp 8.3L
	Perkins/Sabre 265Ti	265hp 6.0L
	Volvo Penta 74C EDC	450hp 7.3L
	Yanmar 6CX-ETE	420hp 7.1L
Gearbox	ZF 302V-LD 1.65:1	
	Hurth 800V 1.64:1	
Propulsion	Fourbladed propeller	
Top speed	18 - 24 knots	
Working speed	12 - 16 knots	
Cruising range	400 nm	

*Gross Register tonnage, acc. to the London convention 1969.
**Other engines upon request.

Automatic longline system: longline hauler, bait cutter, random baiter or baiting machine
Jigging reels
Gillnet system
Tuna longline system
Potting
- Other types of fishing equipment upon request.*

CLEOPATRA 33 FISHERMAN

TREFJAR LTD
ICELAND

Efficient, swift and sophisticated, Cleopatra is your key to success

The Cleopatra Fisherman 33 is a high-speed fishing boat, designed to withstand the rough seas and weather conditions of the North Atlantic Ocean. Made of glassfibre reinforced plastics (GRP), according to rules and regulations set by the Nordic Boat standard.

The Cleopatra Fisherman 33 is designed to meet all requirements of professional fishermen for efficiency, speed and seaworthiness.

The boat is equipped with high-technology fishing equipment and can be fitted out for longlining, jigging reels, nets and Danish seining. The Cleopatra Fisherman 33 is a good choice for independent fishermen and fishing companies alike. It can deliver good catches and high revenue for a low investment.

The Cleopatra Fisherman design also offers great many possibilities for other applications from diving tenders to passenger vessels.
